# open letter to

**Dear President, Prime minister, Home ministers and chief ministers of all states., Indian IAS and IPS, all MPs and MLAs (of India),**

With due respect, we beg all of your attention to look into the matter below.

Do you think women in India are enticing men to rape them? You give us all Indian men an answer. The country asks you. 24 hours a day, these kinds of women appear round the years in front of men's eyes. It is a rape of men by female perpetrators. Who gave the rights to violate men's minds and souls?

You have killed, hanged, falsely encountered and killed and sentenced millions to jail in the name of rape. Do you all have a conscience? Don't you think India's law and order are agents of miscarriage judgement?

We men of the country are upset. We are waiting to hear from you

**Dear Prime minister, Women commission, Please, save Men Seeing causes emotion. Emotion drives men to act.**

24 hours a day, all males- from kids to octogenarians are forced to see these images. These are porn, damages men's brain like drug addiction. This India hanged five (5) rapists and killed four (4) rapists without proving guilty. But never punish these women. Please, Punish them.

## **Indian films high on pervasive stereotyping and sexualisation of women: UN report**

Rape is caused by rape culture. India today. September 24, 2014

A rape culture generates from sexual objectification. It is the root of the uncontrollable desire of men and leads men to funeral ground.

The Organisation which research psychology tells us:

"Our society's obsession with the appearance of women's bodies sustains rape culture. Girls learn from a young age that what matters most about them is the way they look, and boys are taught to value this in girls above all else. Because of our culture's relentless focus on appearance, women are constantly turned into objects. Women literally are hamburgers in some advertisements or are cut into sexualized pieces in others. ... a phenomenon known in psychology as self-objectification. Research shows that self-objectification is linked to body shame, disordered eating, depression, substance abuse, and sexual dysfunction.

The problem with turning women's bodies into objects is that objects are less than human. Objects don't have feelings or attitudes or intelligence. - objects are there for us to use. Once, women are seen as objects (and in particular, sexual objects), it draws the attention of men to temptation for committing violence against them." So Men are the victims of women perpetrators.

### **INTERNATIONAL MEN'S DAY HISTORY**

To recognize and celebrate the cultural, political, and socioeconomic achievements of men.

In 1968, American journalist John P Harris highlighted the need to celebrate International Men's Day through an editorial. He said the Soviet Union observing International Women's Day and not having an International Men's Day was against communism.

In 1993, Thomas Oaster, the director of the Missouri Center for Men's Studies, invited various organisations in the United States, Malta and Australia to conduct small International Men's Day events in February.

Then, in 1999, in order to highlight positive male role models and create awareness of men's health, Jerome Teelucksingh from Trinidad and Tobago chose to mark International Men's Day.

In 2009, Malta, which had been observing International Men's Day in February, started marking it in November. Dr. Teelucksingh and other members of the IMD Coordination Committee (no longer in place) formally ratified the core objectives of International Men's Day. The Objectives were ratified to protect the central values of IMD and to offer a reliable reference point for future celebrants. These are considered to be the core objectives of IMD, namely: **'All The Six Pillars of International Men's Day'**

To promote positive male role models; not just movie stars and sports men but everyday, working class men who are living decent, honest lives.

To celebrate men's positive contributions to society, community, family, marriage, child care, and to the environment.

To focus on men's health and wellbeing; social, emotional, physical and spiritual.

To highlight discrimination against males; in areas of social services, social attitudes and expectations, and law.

To improve gender relations and promote gender equality.

To create a safer, better world; where people can be safe and grow to reach their full potential.

# ● Keep a safe distance from women. ●

Hello man, you are a victim of pornography. Science says pornography destroys your brain and health. Makes you aggressive and culprit. Famous actresses, models, singers in revealing dress are earning huge amount of money just by showing you their bodies. Many of them are prostitutes or involved with more men in promiscuous relations. Their appearance is as porn stars promote the sexualisation of women. The print media and electronic media are doing business with them, making them famous. Protest against sexualization today. And demand that those who have become famous for their sexualisation be fired from public or government positions, just as many men were removed from many prominent positions during the 'Me too' era. Sexualization is a social crime. can be punished by the obscene act. Because they are women so they get impunity, Justice in gender-partiality is poisoning society. Be vocal against pornography today or tomorrow your son may be convicted for rape. The rape culture is created by women, for the destruction of men.

**UNION OF MEN: ALBERT ASHOK†** পুরুষ সমাজের পক্ষ থেকে প্রচারিত, শেয়ার করুন।

Some people say, "my body is my choice". If a dog bites you because of your appearance, You have to keep quiet. Do not complain. The reason behind this is the viewer's visual stimuli you are attacking with your appearance. Suppose you meet an accident. Should passers-by leave you bleeding on the road? What do you expect? We expect someone helps you. You can not live by your own choice. The law of the land wants its citizen to abide by the rules. It punishes the lawbreaker.

You are forced to live abiding by the law. No country ever let you live by your freedom. Your own choice can't hurt the people around you. Nor even a woman can tell she is the decision-maker of her pregnancy whether she should abort or not. The reason is she belongs to a family of many members. Her well being cost others bear the expenses of money. If she does not take her husband's permission, her husband is not a party to give her money and other provisions. So It is the foolish word the feminists are spreading. Feminism is a cancer of society.

“

Before people know your identity, they will recognise you by your outward appearance. How you look. Mostly with your physical appearance and the rest with your activities. So your visible aspect or appearance tells people who you are primarily to thousands of people in the community. You are what people say you are. If your look is like a Fat man, people will call you a fat man.

Fat man

A hooker

A decent lady

a mad man

A village girl

A prostitute

You can't tell thousands of people living in a society -

**"My body, my choice";**

Society will not accept. Because Society, a civilised organisation, provides your security, maintains law and order, facilitates your living, and you will not follow the rule of it!

You can not break social order, no way. If you don't like social rules/order, you can stay at home and don't come out.

**Union  
OF MEN**  
Albert Ashok

What you wear tells about your social status, whether you are a prostitute or CEO of a corporate house. Society never put the same values on every human. A porter is not equal to a doctor; a prostitute never gets honour like a professor or a corporate CEO. Those women bare their breasts, thighs, vagina- society call them prostitutes. Prostitutes may earn millions, but her money can not give her honour remains a prostitute till she dies.

Women who can survive without revealing their breasts, navel, back, vagina and thighs, without sexualising their body for money and fame, I respect them.

### **We need to make a law against the sexualisation of women.**

- 1) Sexualisation makes men feel an impulse to have sex.
- 2) 24 hours a day, the electronic media projects women as sexual objects and distracts men from their attention at work. Both of which ruin men's health and safety. Lead to temptation and crime.

For the last 100 years, women have been objectifying their bodies as objects of sex. Step by step, through the ages. And in today's electronic world, prostitution is being run secretly. The problem is, sometimes women are selling sex under the guise of 'love and friendship' and sometimes making false allegations like rape. The rape allegation makes men monsters and destroys the health and safety of men.

## **NEED LAW TO CURB SEXUALISATION OF WOMEN**

It is illogical to say that society is changing. Social change has nothing to do with women's sexual activities. People's attitudes are changing. Now no one thinks nudity is depravity. The fact is – people have different faiths and values for a particular geographical area. How is it possible to accept in the East what is acceptable in the West or the Middle East? How could Hindus embrace the values that the people of Christianity follow? Or will Muslims support it? For example, the sexualisation of women is seen in America and Europe. Because they are Christians. But will Muslims sexualise or commodify women like Americans and Europeans? Let's judge by the majority and number? Will America or Europe run the Chinese state system? or Sharia law? Is nudity acceptable to women who do not want to show off their bodies or wear a veil? If society embraces nudity little by little, will it be better when women would stand naked in the street? Will it be an example of progressive civilisation? In the American or European mindset, women wearing bikinis and miniskirts. As a result, there are more rapes or sexual assaults take place. Women are claiming they are not sex objects but women. If they are not objects, then why do they project their bodies as sex objects?

Empowering women does not mean supporting their desire to be naked or allowing them to disobey social values.

There are laws to take action against obscenity and sexuality But the law is not enforced. Such as **Section 292, 293, and 294 IPC**

# WOMEN ARE SPREADING RAPE CULTURE

THE UN WOMEN AND OTHER FEMINIST INSTITUTIONS/ORG SUPPORT WOMEN TO INSULT MEN. CAN YOU STOP INDECENT EXPOSURE OF WOMEN?

Women are almost naked inside and outside the house 24 hours a day through advertisements, films, video music, electronic media, and physically in public, like porn stars. Not just female celebrities. The women in every locality also show their backs-breasts-navels-vaginas-buttocks-thighs to everyone irrespective of age and class/category. This irresistible sexual temptation provokes men and tortures them mentally. The government has empowered women so that no one calls women social evil and made laws in women's favour. So tell me, in this matriarchal society, where men will go. The system causes frustration to men.

The Govt. and Feminists' supporters advocate capital punishment and killing rapists by fake encounters. But never punish those women spreading rape culture. There is a law to book indecent exposers to the female body. Have you heard women got punishment for their crimes ever?

We condemn the Government and women institutions for every rape taking place.

# Role of Women: Rapist is born in every house

Women are born sex objects, sexualised, and show their sex objects to children, teenagers and young people.

Look at the images, it tells you how the women of our houses expose their female sexualised bodies in front of male children, teenagers and youths. Men see all this with eyes full, and men suppress their sexual arousal fearing society. The light of our eyes is much powerful in moving and arousing the desire and mind. The evolution of millions of years made the visuals powerful. The feminine objects forcibly penetrate the retina of my eyes, just as the smoke comes out of someone else's cigarette into my nose. It's a kind of rape, mind pollution. There is no place for boys in this world where women would not seduce men by their bodies and no such mind pollution.

Union of MEN: An Anti-sexualisation forum: Albert Ashok

# Who? I am stupid or The UN?

Sometimes I think, I am stupid or The UN? Because many laws the UN makes are against society and individuals, these harm mankind, irrespective of geographical area and differences. Who do they think has got the authority to create universal laws? The Un can't dictate rules for nations, not even they can suggest. Life gets comfort from adoption according to the climate and situation/condition of the region. The weather of region and conditions of living of the whole year keeps changing by season with times.

The people who live in the hotter zones may be, they don't need clothing, and those who live in colder zones must wear clothes more to keep them warm.

Body autonomy is not a foolproof idea for people on this planet that the UN promotes with the campaign and propaganda.

For example, the women brigade (the feminist) wants to get naked among the public and, wherever they like to be, they say Body autonomy, 'my body my choice'!

For the last century, in the name of body autonomy, women getting naked in films, advertisements and through all kinds of media. Which, in other words, women's commodification and sexualisation. Women's naked body is a kind of pornography too, that is much harmful to society; especially for men. Commodification and sexualisation invite violence and crime.

In an office, a woman's dress is an important matter, for her miniskirt and revealing dresses distract others, seduces men, and brings the temptation of crime to others.

Every society has a simple code of conduct. Body autonomy brings self-liberation and a conflict with society or in collective nations. You can not distract the attention of a large number of people with your behaviour. You can not keep smoking in public spaces where others are sharing the space. Smoking harm non-smokers. You can not open your genital before a man or woman. It is indecency.

If you keep your pregnancy as your right to 'body autonomy', then your family will not bear the price of the consequence you bring. Maybe Your family can not afford the cost of the unwanted situations/damage you are causing. Every country has its administration, law and order.No one should insist a change it except its' citizen.

Do you think I am stupid? ~ Albert Ashok

## Higher prevalence of sexualisation of women in Indian films: UN report

As much as 35% of female characters are shown with some nudity in Indian films

Web Desk September 24, 2014

These women sexualise their body to get money and fame, how they become a judge on TV and ideal for our children? According to the United Nations, the sexualisation of girls is a social epidemic. Punishable offence in Indian law. They get impunity because you do not protest.

*Albert Ashok: Union of MEN, Anti-sexualisation group*

The first-ever United Nations-sponsored global study on female characters in popular films across the world, published on Wednesday, ranked India on top in showing attractive women in its movies.

The study, commissioned by the Geena Davis Institute on Gender in Media with support from UN Women and The Rockefeller Foundation, revealed deep-seated discrimination and pervasive stereotyping of women and girls by the international film industry.

# This is an appeal to all Indians, for discouraging sexualisation and commodification of Indian girls and to end a Rape culture.

We are UNION OF MEN, a Men's Right organisations in India.

**Our appeal is:** To remove all women from judge panels of reality TV shows like Indian Idol of Sony; the women who promoted sexualisation and exposed their body to the public as rape culture and food of the male gaze. Because These women encourage and influence our young girls to expose their body. Young girls, who have no sense about rape culture, sexualisation, objectification mimic celebrity actresses, models and singers.

**Sexualisation is porn and obscene or vulgarity. which are a pandemic to society and social crime.**

Please, remove the women and never allow any female judge who had exposed her sexuality through film, music or public life earlier.

**You citizen of India is responsible for your action.**

we want a better Indian better culture where women are not disgraced/ degraded of their status, and end of Rape culture.

**The global leaders (the UN and others)** are spreading their messages throughout the world, to every country, against sexualisation/ objectification/ commodification/ violence and rape of any person.

1. In a panel discussion at the ongoing FICCI Frames, in March 2018, criticising the culture of item numbers in Hindi films, veteran actor Shabana Azmi said women are used in movies for 'titillation'. Azmi said item numbers involve a woman surrendering to the male gaze, it is problematic when people are shown a woman's "fragmented bits of her body, [ ]heaving bosom, swinging navel, shaking hip", as it robs her whole autonomy.

## Basic difference between man and woman

I am a man, I am proud of my masculinity. My success is my skill and talent, not my masculinity. I don't uncover any part of my body, or genitals, to prove my work and talent like women. I am an actor, musician, dancer, social activist, But I never exhibit my penis and chest to the public. This is the basic difference of strength and power between man and woman. Man prove masculinity fully dressed where a woman fears to prove without being naked. This is pathetic!

Not only in India but throughout the whole world, **the legislators and the judiciary became the stupid No. 1** on the day when they started sending millions of men to jail on the face value of women accusers without any investigations or scrutiny; whether the woman did lie or used the justice system as a tool to gain some benefit.

This was a blunder of a justice system that proved its corruption and hypocrisy in the name of justice.

That tradition is still going on. Who will solve this corruption and discrimination?

In despair and helplessness, men started hating women, because if they don't hate, or do protest now, who knows that the boy who would be born tomorrow would not go to jail? Yet men do respect the court of law still now. But for how long?

We men want the law and justice system to be neutral. stupid!

If women want the safety of their vagina, shouldn't visit men. Men reserve the right with whom they would work, do business while creating a work culture as a team. No law can force men to employ women and strip men's right. Let women alone create their own work company and workforce. We welcome them to prove their might and strength.

## Women are leading society in the wrong direction.

### 1. Feminism is the wrong path.

E.g.

Simone de Beauvoir was the wrong woman. She says in her book, *The Second Sex*, that women find it difficult to urinate because they have to urinate while sitting, while boys find it easier to urinate while standing. She started imitating men from here. That was a big mistake. Because it is a natural and evolutionary crop of millions of years. It can't be compared and changed.

If she had taught women how to become better women then society would be more developed and would have been benefitted.

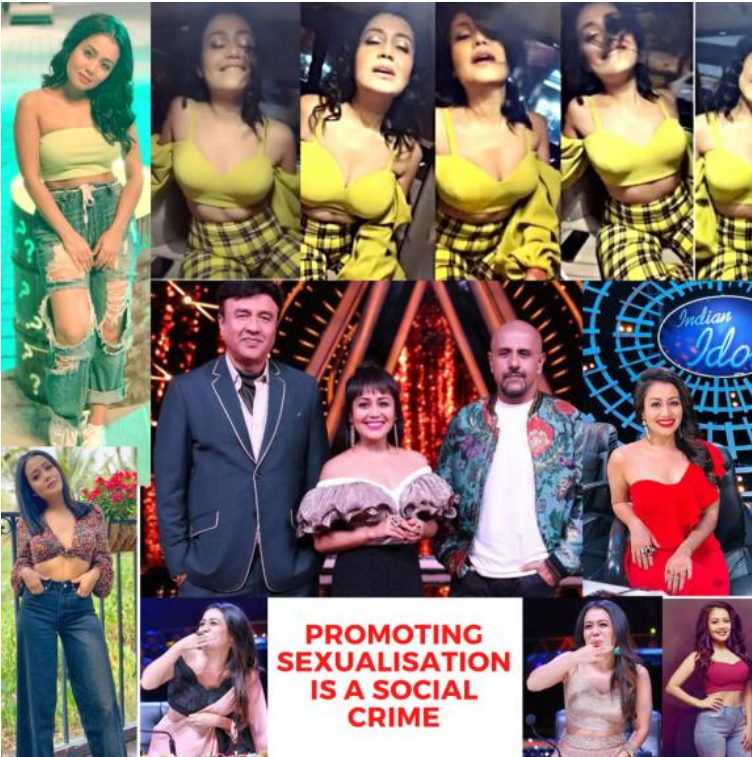

Ms Beauvoir was no longer the same between her personal life and her theories. She has made mistakes on both sides.

She has taught girls that they can have sex with any man at any time without getting married. She has had sexual intercourse with many men and women. She had never considered how rape is defined.

She used to supply underage girls to her male partner Jean-Paul Sartre for sex.

She has done no good to society through her life and works. Women have been misled. If she were alive today, she would be in jail. She was a pervert.

# “ FEMINISM IS WRONG

I wouldn't be surprised if one day in the near future, women want to be equal to men by having a penis surgically planted on them. Raising a placard and demand it. Because women want to imitate men. Indirectly, women (semi-educated feminists/ the modern women of metro cities) have started hating women's bodies. They want to be equal to men, in manners, culture, and biology. They do not care about logic and science. If men can be topless, women also do not see any obstacle to be topless, bare-chested.

Science says that what women see in their eyes, or the hormones that drive their bodies is not like men's.

For example, women see a complete picture of men. But in the eyes of men, a woman is not complete, she is fragmented. a woman could be only the vagina or only the breasts. Just as Arjuna did not see the whole bird during the targeting, only the eye of the bird he did notice.. If a woman wants to be equal to a man, her biological hormones have to be changed. Is that possible?

# Feminism is the wrong path.

## 3rd example of the series

Feminists and sex workers' professions become one at a certain point. That means there is no difference between the two. They both deal with their confidence in their body as a commodity and exchange for money. For example, when sex workers call clients, they openly show their genitals - breast cleavage, navel floor, thighs, to entice men. Feminists also use the same tactics under the guise of some alibies.

[https://www.youtube.com/watch?v=F6\\_sAbmTKeU](https://www.youtube.com/watch?v=F6_sAbmTKeU) Watch this age-restricted video

Showing breasts to men on the pretext of breastfeeding, showing breasts on the pretext that the upper bare part of the man. Being naked on the pretext of not cutting the fur of an animal, being naked in protest when someone is raped, being naked in bad weather, showing nude on the pretext of being equal to a man, etc.

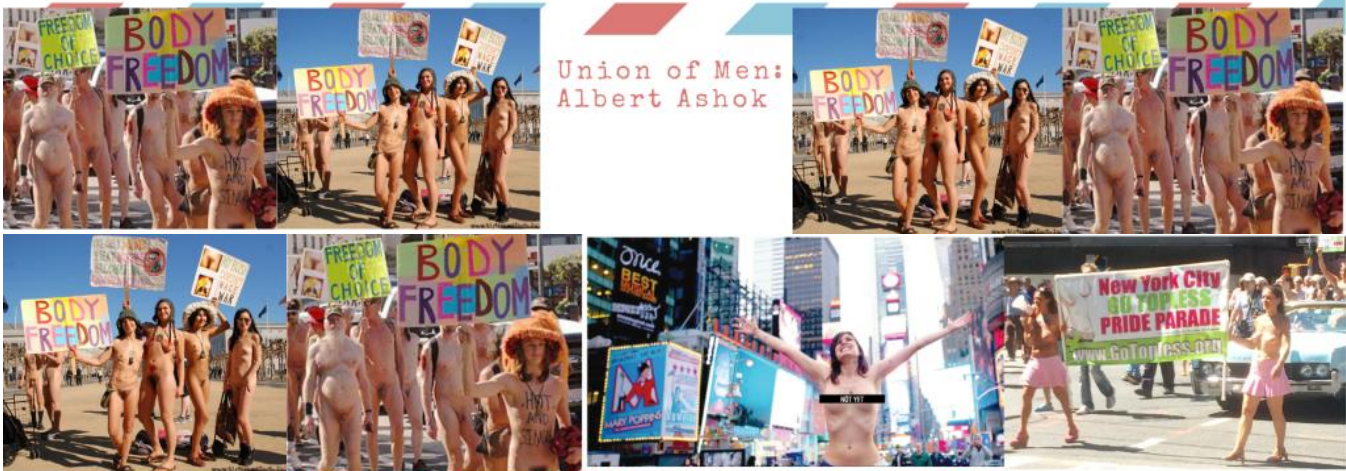

They have no other alternative way to protest in their tiny head, they are just zero without their sex/body. Do they have no parents, no children? Aren't they being sexually harassed by their bodies?

Sex workers do not show bodies outside the redlight area. Feminists show body everywhere, Is it their power?

There is a huge difference between educated feminists and rural women. You will not see a rural woman in an indecent dress without judging space and time. You will not see any state high profile, scholarly woman/professor, aristocratic woman, the secret skin of their attires. I have never seen the skin of Kiran Bedi, Sushma Swaraj, Sirimavo Bandar Naik or European American bureaucrats from the neck down to the knee. They maintain their dignity by their choice of dress code. Then take for grant that, feminists do not represent women all over the country/world. Feminism is about imposing perverted ideas on other women's thoughts.

The Feminists insult all women by being naked. Being naked means sexualization of the body, commodification or commercialization. Body commercialization means degrading womanhood to a low level. Buyers are been created when commodities are in an open market. when men go to sex workers it is not an offence, but when men go to feminists they start a hue and cry.

The market for rape is the creation of feminists. Now it is their responsibility to eradicate rape. Attention! the Women's Commission.

# Feminism is the wrong path.

## 4th example of the series

### From an evolutionary perspective

The problem is, the **visual stimuli induce emotions/ sex**. After light passes through the eye, **the image that's produced on the retina is sent to the brain's primary visual cortex in the form of electrical signals**. This correlated with an erosion of the prefrontal cortex — **the region of the brain that houses executive functions like morality, willpower and impulse control**.

Damage to the prefrontal cortex in adulthood is termed **hypofrontality, which predisposes an individual to behave compulsively and make poor decisions. Watching naked female images rewires the male brain like pornography. Thus Female Sexualisation and objectification create a compulsive rape like behaviour in men.**

Now question to Feminists and women commission, **What right you have to damage a men's brain?** Men demand their rights to protect their brain by eliminating all these naked bogus things. It's a challenge.

A few women get naked in the guise of protest (lame excuse? a live pornography performance!) pampered by the Women Commission and UN Women, which is called feminism. Feminism makes man rapists. It is the worst kind of poison destroying society.

**There are thousands of issues against society/ government, So, should woman abandon clothes?**
